Your Emergency Response Conference
Information & Registration Form

your **Indiana 2006**
American Heart Association
Emergency & Responders
Conference Information
Inside

September 14 - 17, 2006, at the Marriott East Hotel,
21st and Shadeland Avenue, (I-70 East and Shadeland)
Indianapolis, Indiana

Conference Information

Overnight Accommodations: Available at three different hotels located at 21st & Shadeland (I-70 East & Shadeland). The Marriott East Hotel (\$112/night), the Fairfield Inn (\$95/night), and La Quinta Inn (\$75/night) share the same parking lot. Tax is 15% per room per night. For reservations, please call the Marriott Conference Center at 317-322-3716, extension 1101, and ask for either the Marriott East, the Fairfield Inn or the La Quinta. *Please* make your reservations prior to August 26, 2006 to receive special conference rates. *Be sure to indicate you are attending the Indiana 2006 Emergency Response Conference.*

Conference Registration: Single rates and group rates (5 for the price-of-4, mailed in the same package) are available to providers. You may register for the Indiana Emergency Response Conference at the conference registration desk in the Marriott East Hotel during the following times: **Wednesday, Sept. 13, 7 a.m.-4 p.m.** **Thursday, Sept. 14, 5 p.m.-7 p.m.** **Friday, Sept. 15, 7 a.m.-4 p.m.** **Saturday, Sept. 16, 7:30 a.m.-4:30 p.m.** **Sunday, Sept. 17, 8 a.m.-12:30 p.m.**

CANCELLATION POLICY: *Full refund if we receive written cancellation request by 9-8-06; 50% refund if we receive written cancellation request after 9-8-06; no refund if request received after 9-15-06.*

Continuing Education Units/Credits (CEU): The AHA and the EMS Commission will issue CEU credit for conference sessions attended. More information regarding the issuance of CEU credits will be distributed at the conference.

EMS Commission Meeting, Thursday, September 14, 5 p.m., Marriott East Hotel.

Opening Ceremony: Friday, September 15, 12:45 p.m., Marriott East Hotel.

Exhibit Hall Hours: Thursday, September 14, Noon - 5 p.m.
Friday, September 15, 8:45 a.m. - 1 p.m., and 4:30 p.m. - 7 p.m.
Saturday, September 16, 9 a.m. - 1 p.m.

Vendor Open House: Friday evening open house begins at 6 p.m. in the Exhibit Hall.

EMS Banquet: Saturday, September 16, 6 p.m. - 7 p.m., Marriott East Hotel. \$30 per person - purchase in advance.

EMS Awards Ceremony: Saturday, September 16, 7 p.m., Marriott East Hotel, following the EMS Banquet.

Memorial Service: Sunday, September 17, 8:30 a.m., Marriott East Hotel.

Emergency Response Pre-Conference Special Events **Thursday September 14, 2006**

8 a.m. to 4 p.m.

EVOC Instructor Course - Steve Garrison, RN, EMT-P, PI - Memorial Hospital. This course is open only to individuals currently certified in EVOC, and will take place at the Emergency Services Education Center in Wayne Township. Cost is \$35 per person.

8 a.m. to 5 p.m.

NIMS Certification Course, 2-day Course. Graduates from this 2-day program will be eligible for certification at the 700, 100, and 200 levels. Training Staff - Indiana Department of Homeland Security. Free with a 3-day conference registration, otherwise there will be a \$20.00 charge. Limited to 30 people.

8 a.m. to 11:30 a.m.

Cadaver Lab - Bill Hufford, EMT-P, PI - St. Vincent Hospital, Indianapolis. A hands on Cadaver Lab focusing mostly on airway anatomy and airway techniques including intubation, active CPR circulation, chest decompression. The course will take place at the St. Vincent Hospital-Indianapolis morgue. Limited to 20 people per session. \$100 per person.

Governor's Ambulance Competition - Finals **Thursday, September 14, 2006**

8 a.m. to Finish:

Come watch the final three teams in each category (EMT Basic, Advanced, Intermediate, and Paramedic) compete for first place and take home the coveted Governor's Ambulance Competition Cup at the Marriott East Hotel.

Skill Proficiency Sessions

- **Friday, September 15, 2006: 10 a.m. - 5:45 p.m.:** *Bleeding & Shock, Long Bone & Joint Immobilization, Traction Splinting, and Spinal Immobilization Seated & Supine*
- **Saturday, September 16, 2006: Morning Sessions, 9:30 a.m. - 11:45 a.m.:** *Patient Assessment-Medical / Trauma, Bleeding & Shock, Cardiac Arrest-AED & BVM / Combitube, and Apneic Patient O₂ Admin / Airway, O₂ & Vent / Mouth to Mask*
- **Saturday, September 16, 2006: Afternoon Sessions, 1p.m. - 4:30 p.m.:** *Cardiac Arrest / AED & BVM / Combitube, Patient Assessment-Medical / Trauma, and Bleeding & Shock, Long Bone & Joint Immobilization, Traction Splinting, and Spinal Immobilization Seated & Supine*

Conference Information

Emergency Response Pre-Conference Special Events

Thursday September 14, 2006

8 a.m. to 5 p.m.

EVOC Instructor Course - Steve Garrison, RN, EMT-P, PI - Memorial Hospital. This course is open only to individuals currently certified in EVOC, and will take place at the Emergency Services Education Center in Wayne Township. Cost is \$35.00 per person.

8 a.m. to 5 p.m.

NIMS Certification Course, 2-day Course - Joe East, FF, EMT-P, PI, Avon Fire Department and Dan Chubb, FF, EMT-P, PI, Brownsburg Fire Department. Graduates from this 2-day program will be eligible for certification at the 700, 100, and 200 levels. Training Staff, Indiana Department of Homeland Security. Free with a 3-day conference registration, otherwise there will be a \$20.00 charge. Limit 30 students

This two-day course combines FEMA's Independent Study #700 (NIMS: An Introduction) with Incident Command System courses at the 100 and 200 levels (Awareness/ Introductory). It is designed to provide response personnel at all levels with the tools to provide an effective, integrated response and aid in the development of a plan to manage the incident scene. The complexity of incidents, coupled with the growing need for multi-agency and multi-functional involvement on these incidents, has increased the need for an integrated incident management system that can be used by all emergency response disciplines. The National Incident Management System can be used for all operations within a single agency or for integrated operations conducted by multiple agencies or jurisdictions. The organizational structure is adaptable for all types of incidents (normal emergencies, natural disasters, technological disasters, major events management and local security and/or terrorism issues).

Many disasters, including terrorism incidents, are very complicated and labor intensive by nature. This course will help prepare responders when these incidents occur and will define the roles and responsibilities of various agencies involved in response efforts.

Subject areas covered include the history and evolution of the Incident Command System, basics of the National Incident Management System, Incident Commander functions, command staff functions, general staff functions, incident response and stabilization, and NIMS/Emergency Operations Center interface. Upon completion of the course need for an integrated incident management system that can be used by all emergency response disciplines. The National Incident Management System can be used for all operations within a single agency or for integrated operations conducted by multiple agencies or jurisdictions. The organizational structure is adaptable for all types of incidents (normal emergencies, natural disasters, technological disasters, major events management and local security and/or terrorism issues).

Many disasters, including terrorism incidents, are very complicated and labor intensive by nature. This course will help prepare responders when these incidents occur and will define the roles and responsibilities of various agencies involved in response efforts.

Subject areas covered include the history and evolution of the Incident Command System, basics of the National Incident Management System, Incident Commander functions, command staff functions, general staff functions, incident response and stabilization, and NIMS/Emergency Operations Center interface. Upon completion of the course students will be able to take FEMA's online exam for the IS-700 and receive a certificate from FEMA.

8 a.m. to 11:30 a.m.

Cadaver Lab - Bill Hufford, EMT-P, PI - St. Vincent Hospital Indianapolis. A hands on Cadaver Lab focusing mostly on airway anatomy and airway techniques including intubation, active CPR circulation, and chest decompression. The course will take place at the St. Vincent Hospital , Indianapolis morgue. Limited to 20 people per session. \$100 per person.

Emergency Response Conference Events

Thursday, September 14, 2006

8 a.m. to 5 p.m.:

NIMS Certification Course, first day of two-day course.

8 a.m. to 4 p.m.:

EVOC Instructor Course - Steve Garrison, RN, EMT-P, PI - Memorial Hospital.

8 a.m. to 11:30 a.m.:

Cadaver Lab - Bill Hufford, EMT-P, PI - St. Vincent Hospital, Indianapolis.

Friday, September 15, 2006

8 a.m. to 5 p.m.:

NIMS Certification Course, second day of two-day course.

9 a.m. to 9:30 a.m.:

Opening and DHS information.

9:45 a.m. to 11:00 a.m.:

General Session: "How Full Is Your Bucket?", Mike Smith, BS, CEMP, Tacoma Community College, Tacoma WA. This unique presentation focuses on the topic of "positive psychology" and how to develop positive strategies for both work and personal settings. Suitable for all levels of EMS providers and for nurses.

11:00 a.m. to 11:15 a.m.: BREAK.

11:15 a.m. to 12:15 p.m.:

General Session: "The Art and Science of Patient Assessment", Mike Smith, BS, CEMP, Tacoma Community College. This program focuses on how to provide a higher level and more productive patient assessment. This practical, take-it-home-and-use-it-tomorrow session works for all levels of prehospital providers as well as for nurses.

12:15 p.m. to 1:30 p.m.: LUNCH

1:30 p.m. to 2:30 p.m.:

Infection Control, Universal Precautions What On Earth Went Wrong?, Jim Christopher, EMT-P, PI, St Francis Hospital EMS Coordinator, Indianapolis, IN. The presentation will focus on the evolution of infectional control practices and the impact it has made on EMS. It will examine the benefits and the risks to providers, yes I said risks. Lets look at what has gone wrong, why, and how we might fix it

When Is Enough Enough? The Quest For Resuscitation Endpoints, Mike Smith, BS, MICP. This is a high end presentation geared for ALS providers and Nurses. Based on over 20 years of research publications, a variety of resuscitation issues are touched on, as we make our way to trying to define at what point we have successfully resuscitated our patients. Put on your thinking caps for this one!

The Minimum Wage, Overtime, Recordkeeping & Child Labor Requiements of the Fair Labor Standards Act, Adam Wombacher, US Dept Labor.

Becoming A Critically Reflective Teacher, Lindi Holt, MS, EMT-P, PI, EMS Ed. Prog.Dir., Methodist Hosp, Indianapolis, IN. Fitness in Emergency Services, Vito Palumbo, EMT-P, PI, Firefighter, Elkhart Fire Dept., Elkhart, IN.

2:30 p.m. to 2:45 p.m.: BREAK.

2:45 p.m. to 3:45 p.m.:

LOC: Not Just A State of Mind, Don Hess, EMT-P, PI, EMS Coord., St. Anthony's Medical Center, Crown Point, Merrillville, IN. Changes in the mental status of our patients pose challenges for EMS professionals. This session will focus of identifying the differential diagnosis and proper management for those patients.

No IV: A Case Review of the EZ-IO, Mark Pepple, EMT-P, PI, Lutheran Air, Fort Wayne, IN. This Presentation steps through training to implementation of the EZ-IO to the first use of it at Lutheran Air, Lutheran Hospital, Ft. Wayne, IN.

Medicare Condition Codes, Gary Miller, Prompt Medical Transportation, Inc., Griffith, IN.

Your Accreditation Site Visit, Lindi Holt, MS, EMT-P, PI, Methodist Hospital, Indianapolis, IN.

Addressing the Needs of the Latino Community, David Milen, PhD, EMT-B, Firefighter, Training Officer, Hammond F.D. The presentation seeks to address how firefighting, emergency, and rescue personnel can address issues and concerns arising when communication barriers become evident while responding to emergencies in Latino communities. The aims are to address cultural competence, family values, communication suggestions, and how to address the Latino

Friday, September 15, 2006 - (continued):

Addressing the Needs of the Latino Community (continued):

communities during emergency responses. Understanding the potential barriers that might be encountered in administering medical care, assisting in times of distress, and becoming aware of beliefs and health care treatments within the Latino communities will be discussed.

3:45 p.m. to 4 p.m.: BREAK.

4 p.m. to 5 p.m.:

Got CO? Recognition and Treatment of Carbon Monoxide Poisoning, Barry Hickerson, Masimo.

Identifying Posterior Wall Myocardial Infarction, Michael Matheny, EMT-P, PI, Community Health Services, Indianapolis, IN. In this presentation Mike will explain how to identify changes on the standard 12-lead EKG that suggest posterior wall infarction. Consideration of reciprocal changes will be addressed instead of additional lead placement. Clinical implications and management will then be discussed.

Keeping Your Team Alive, Don Hess, EMT-P, PI, St. Anthony's Medical Center, Crown Point, EMS Coord., Merrillville, IN. Recruitment, retention, and advancement of the field personnel for both the public, and private sectors

Best Characteristics & Skills for Motivating Instructors, Sherry Basile, Director of Nursing Education, Hendricks Regional Health, Danville, IN.

It Only Takes A Few Seconds to Change A Life Forever, Ron Buchanan, EMT-P, PI, Versailles, IN. Shaken Baby Syndrome (SBS) is the collection of signs and symptoms resulting from the violent shaking of an infant or small child. It is a form of child abuse. Learn important signs/symptoms and treatments for EMS providers.

5 p.m. to 5:15 p.m.: BREAK.

5:15 p.m. to 6 p.m.:

General Session: SPECIAL GUEST SPEAKER - Randolph Mantooth. Randy is best known for his starring role as Firefighter/Paramedic, John Gage in the long-running hit television series "Emergency!" (1972-1979). A classically-trained theatre actor, writer and director, Randy has appeared in over 70 films, television series and daytime dramas. Randy has also lent his voice to a number of shows and documentaries including Ken Burn's The West and Kevin Costner's CBS Special 500 Nations. Through the years, Randy has been an invited speaker to countless Fire Department conventions and EMS functions nationwide. He recently returned from speaking at the East Meets West Conference in May, held in Commerce, California. Frequently introduced as "The Most Recognizable Fireman in America" his is a face known and beloved by millions worldwide. He recently hosted "Managing Terrorism" a film/documentary produced by the U.S. Department of Justice, which will be released next year. His ongoing passion for this heroic vocation has led him to focus on the "Elite of the Elite" of the Fire Service — USAR, Urban Search and Rescue. Randy is developing, together with his partner, Hayma Washington, a television series based on these unique and heroic men of USAR.

Vendor Open House: Friday evening open house begins at 6 p.m. in the Marriott East Hotel Exhibit Hall.

Schedule Cont'd on Page 7

FRIDAY SEPTEMBER 15, 2006

Guest Speaker

RANDOLPH MANTOOTH

Randolph Mantooth is widely recognized for his role as LA County Firefighter/Paramedic Johnny Gage in the 1970s television show, "EMERGENCY!" Arriving in America's living rooms every Saturday night for seven years, John Gage and Roy DeSoto helped change the face of emergency medicine forever.

"EMERGENCY!" first introduced the virtually unknown word 'paramedic' to the public in January 1972; a word now part of our every day lives. In May 2000, the show was inducted into the History of Medicine section of the Smithsonian Institute's Museum of National History in recognition of its vital contribution in accelerating the establishment of Advanced Life Saving programs throughout the nation.

In his life after Johnny Gage, Randy has been a busy actor and writer, and is currently developing a new TV show about Urban Search and Rescue. He is a frequent keynote speaker at Fire and EMS Conferences, reminding emergency responders of their professions' history and why their role is so vital to the communities they serve.

Meet Randy when he hosts a fundraising autograph session in the Third Alarm Fire Shop booth in the exhibit hall on Friday and Saturday. Exclusive "EMERGENCY!" photos and other show memorabilia will be available for purchase and personalization. Proceeds benefit the County of Los Angeles Fire Museum's JAMES O. PAGE MEMORIAL BUILDING FUND

Emergency Response Conference Events

Saturday, September 16, 2006

8:15 a.m. to 9:15 a.m.:

General Session: "When Lightning Strikes!", Mike Smith, BS, CEMP, Tacoma Community College, Tacoma WA. In the world of deadly, natural occurring natural events, few rank up there with lightning strikes. This program blends interesting demographics, and strange and unusual cases with practical field care suggestions, collectively adding up to improved clinical decision making for these infrequently encountered but very challenging patients. For all levels of EMS providers and nurses.

9:15 a.m. to 9:30 a.m.: BREAK.

9:30 a.m. to 10:30 a.m.:

START, Becky Blagrove, EMT-B, Southwest District Manager, Indiana Department of Homeland Security. START - A simple system of mass casualty triage. This session discusses the difference between day-to-day triage and use of the START system for mass causality incidents. Participants will learn the three criteria used to classify patients into the Walking Wounded, Immediate Care, and Delayed Care treatment categories and discuss basic concepts of MCI triage.

Recognizing Bundle Branch Blocks, Michael Matheny, EMT-P, PI, Community Health System. In this presentation Mike will give insight in how to recognize both left and right bundle branch blocks on the 12-lead EKG. Further clinical implications and the management of each block will be discussed.

911- "Help, I Have A Brain Disorder Emergency!", Pat Hendricks, Huntertown, IN. "Mental illnesses can affect persons of any age, race, religion, or income. Mental illnesses are biologically based brain disorders. Without treatment the consequences of mental illnesses are unnecessary disability, unemployment, substance abuse, homelessness, incarceration, suicide. The best treatments for serious mental illnesses today are highly effective, 70-90% of individuals have reduction in symptoms with medicine and therapy. Early identification and treatment is of vital importance, yet stigma is a barrier to receiving treatment." Come listen to Patsy talk about brain disorders that EMS have to deal with daily.

The New Instructor's Guide For Success, Ken Hendricks, EMT-P, PI, Huntertown, IN. This session will give the new, as well as, veteran instructors, valuable and practical strategies that can be implemented the next class session. Student performances and successes will immediately improve with a few simple blueprints that can be easily implemented by the instructor as well as the student. Practical Educational theories, such as "Piss'n On the Post" and "The Theory of William Tell", will be explained with examples that will shed more light on the somewhat murky area of student achievement. Audience Participation is required for fun, entertainment, and knowledge.

Calling for Air Medical and Air Medical, Nicloe Milevoski, CFC, BA EMT, INAARMS Emergencies Board Member, Lifeline. This class will give the participants all the information needed when requesting an aircraft to their incident. This will also have a role and responsibility section for all emergency agencies in the event an aircraft has an accident or incident.

10:30 a.m. to 10:45 a.m.: BREAK.

10:45 a.m. to 11:45 a.m.:

100 Most Dangerous Things in Everyday Life, Jeff Benson, EMT-P, PI, Delaware Co EMS, Muncie, IN.

Standardized Approach to RSI and the Difficult Airway, Dr. Matt Sutter, Fort Wayne, IN. An algorithmic approach to RSI for aeromedical crews with an overview of the literature.

The Customer Is Always Right...or Maybe Not, Robert Cree, EMT-P, PI, Remington, IN. Has EMS steered away from "Patient Care" more towards "Customer Service"? This will allow us to look at some similarities AND differences.

Evaluating Competencies, Mike Smith, BS, MICP. This comprehensive program takes a look at the evaluation of competencies in the cognate, psychomotor and affective domains. Though focused on the more experienced instructor, there is a lot here for the novice as well.

How to Testify in Court, Teresa Hall, JD, EMT-P, PI, Indianapolis, IN. Learn how to say the right thing if you get called to testify on an incident you were part of.

11:45 a.m. to 1 p.m. - LUNCH: In the Vendor Hall. Cash and carry.

1 p.m. to 2 p.m.:

General Session: "All Clear", Mike Smith, BS, CEMP, Tacoma Community College, Tacoma WA. This program focuses on one of the more controversial issues of the day; clearing spine injuries in the field setting. The pros and cons of this topic are presented in a practical and thought-provoking way. Bring your thinking caps to this one!

2 p.m. to 2:15 p.m.: BREAK.

Schedule Cont'd on Page 8

Daily Events

Emergency Response Conference Events

Saturday, September 16, 2006 (continued):

2:15 p.m. to 3:15 p.m.:

New Concepts in CPR, Part 1 of 2, Drs Matt Sutter and Tom Dykstra, Fort Wayne, IN. A look at the research and concepts that are behind the new American Heart Association recommendations for emergency cardiac care.

ALS Skills Lab, Part 1, Cathy Spry, RN, INAAMS Board Member, STATCARE. Using the guidelines from the National Registry for EMT-P, a maximum of 24 participants (4 groups of 6) will rotate through advanced life support skills stations. There are four skill stations that the groups rotate through every 30 minutes.

The Indiana Peer Review Statute: Is Your QI Information Protected?, Lee Turpen, CCCEMT-P, PI, American Medical Response, Evansville, IN. Many ambulance providers operate QI programs under the belief that the data and investigations are undiscoverable in cases of litigation. This is not always true. This program will discuss the compliance points of the IPRS and how to protect your QI information.

Generation Y - Why Can't We Figure Them Out?, Vicki Rush, EMT-P, PI, Methodist Hospital Indianapolis, Indianapolis, IN. What's the matter with kids these days? Nothing! They grew up in a different world and have different values than us. Not better, not worse, just different. If we can figure out what motivates them, we can unlock their potential.

Mock Trial, Part 1 of 2, Kraig Kinney JD, EMT-P, PI, and Teresa Hall, JD, EMT-P, PI.

3:15 p.m. to 3:30 p.m.: BREAK.

3:30 p.m. to 4:30 p.m.:

New Concepts in CPR, Part 2, Drs Sutter and Dykstra.

ALS Skills Lab Part 2, Cathy Spry, RN, INAAMS Board Member, STATCARE. Using the guidelines from the National Registry for EMT-P, a maximum of 24 participants (4 groups of 6) will rotate through advanced life support skills stations. There are four skill stations that the groups rotate through every 30 minutes.

Rural Application of Critical Care Paramedics, Kathy Ricketts, EMT-P, Methodist Hospital Indianapolis, IN.

Are We Preparing Our Students For Employability?, Vicki Rush, EMT-P, PI. We make certain they have the knowledge and the skills to provide good patient care, but is that enough to get and keep a job? Not usually!

Mock Trial, Part 2, Kraig Kinney, JD, EMT-P, PI, and Teresa Hall, JD, EMT-P, PI.

EMS Awards Banquet - 6 p.m. - 7 p.m.: Marriott East Hotel. \$30 per person - purchase in advance.

EMS Awards Ceremony - 7 p.m.: Marriott East Hotel, following the EMS Banquet.

Serving on Health Care's Front Line

Schedule Cont'd on Page 9

Daily Events

Emergency Response Conference Events

Sunday, September 17, 2006

Memorial Service - 8:30 a.m.: Marriott East Hotel.

ALL - 9:30 a.m. to 10:30 a.m.:

General Session: "November 6, 2005 - Tornado Response Lessons Learned", Deputy Chief Scott Foreman, Knight Township Volunteer Fire Department, and Chief John Buckman, German Township Volunteer Fire Department. It is 1:45 a.m. when an F3 tornado tore across Southern Vanderburgh and Warrick Counties. The Knight Township Fire Department arrived and commanded the resources used to rescue over 100 trapped and injured civilians. Twenty-four people died instantly that morning as the tornado tore through a mobile home complex with 300 homes. Four hundred fire and rescue personnel responded to the requests for assistance and sifted through the buildings. This presentation will talk about the lessons learned and the operational challenges from the people who were there working the incident.

10:30 a.m. to 10:45 a.m.: **BREAK.**

10:45 a.m. to 11:45 a.m.:

Drug Labs, Mike Oberg, EMT-P, PI, North Webster, IN. Drug use and manufacturing is on the rise in the United States. The EMS is becoming more frequently involved in the response to ill and injured people involved with drugs use. This class will cover how to recognize and respond to a potential drug lab. It will review personal safety and crime scene preservation. There will be a review of the common illnesses and injuries associated with drug use and manufacturing.

Trauma Pregnancy, Dan Andrews, Flight Nurse, PHI AirMed. The program will discuss the assessment, treatment and transport of traumatized patients that are also pregnant.

Move the Numbers, Lee Turpen, CCEMT-P, PI, American Medical Response, Evansville, IN. This will be a quality improvement presentation aimed at how to produce results within your organization. Examples will be given on programs designed to deliver actual long-term improvement.

Human Programs: How to Use Them to Your Advantage, Joe East, FF, EMT-P, PI, Plainfield, IN.

Students come to us with a variety of life experience. It is to our advantage to use that experience and prior programming to our advantage. Learn some tips on how to read and guide your to the desired destination.

Helicopter Landing Zone Safety, Parkview Samaritan and Medflight flight crews.

11:45 a.m. to 12:45 p.m. - LUNCH: You're on your own.

12:45 p.m. to 1:45 p.m.:

Critical Thinking and General Impression, Jeff Benson, EMT-P, PI, Delaware Co EMS, Muncie, IN.

Diseases of the Aorta, Ron Bishop, Flight Paramedic, Air Angels. This class covers all of the different problems we encounter, dissections vs. aneurysm, signs and symptoms, care and transport decisions.

When the Unthinkable Happens! Responding to an Airmedical Disaster, Patrick Raoscher, RN, BSN, CEN, CFRN, St. Mary's Lifeflight. If you have any interaction with EMS aircraft, this opportunity is for you. Your safety is our safety. Geared for fire and rescue, EMS, and law enforcement, this program includes a discussion on the resources needed at the scene of a downed air medical helicopter, helicopter shutdown procedures, hazardous material considerations, as well as crew and patient rescue. Prepare now, and be ready should the "Unthinkable" happen in your neighborhood!

1:45 p.m. to 2 p.m.: **BREAK.**

2 p.m. to 3 p.m.:

Pediatric Trauma, Kathy Ricketts, EMT-P, Methodist Hospital-Indianapolis, IN.

Traumatic Brain Injury, Kim Crarey, Flight Nurse, Lifeline Critical Care Transport. This session will look at up to date information on advanced life support care for traumatic brain injury.

Crew Resource Management Fundamentals of Team Building, Ben Sizemore, EMS Pilot, Air Evac Life Team.

3 p.m. to 3:15 p.m.: **BREAK.**

ALL - 3:15 p.m. to 4:15 p.m.:
